### TCS Brotherhood

Last Sunday's Lawn Games and BBQ was a tremendous success. After grilling burgers and dogs, a Bean Bag Toss Tournament was arranged. Thanks again to New Brotherhood Co-President Rob Newton for hosting. Incidentally, Rob and his partner Skippy were the first team eliminated from the double elimination tournament. Rabbi Ken can be seen in this picture about to toss a ringer (or whatever the proper term is) – and yes, we're assuming that was the result. Rabbi Ken teamed with Barry Grunin to advance to the late stages of the

tournament, but they ran into a red hot team of Steve Dancey and Michael Rauch. Steve and Michael could not carry their momentum into the final however. The team of Brian Schwartz and Scott Weber (picture attached) were eventually crowned as champions of the 2017.

URJ is the Union of Reform Judaism (URJ.org) and is the "parent" organization for Temple Chayai Shalom as a reform congregation. Every two years Reform Jews gather at the URJ Biennial, to totally immerse themselves in Judaism, taking time to explore synagogue life and gather new ideas; study with scholars and celebrate with friends.

Registration is now open and more information about the Biennial is available at <a href="http://cvent.com/events/urjbiennial-2017">http://cvent.com/events/urjbiennial-2017</a> or on Facebook at URJ Biennial 2017. # From Rabbi Ken Eclipse

condensed version of my sermon from August 18th, 2017

On Monday, we will be able to see at least parts of the solar eclipse across the continent. Last *Shabbat*, we saw the moral eclipse in Charlottesville. I probably do not need to rehearse the darkness that ensued:

- the fear felt by the Charlottesville Jewish community, as white supremacists paraded past the synagogue chanting, saluting, pointing, calling to burn the building down
- the incredulous astonishment felt by all of us who saw these events on TV or social media or the newspaper, that such a thing could happen in 2017 in the USA
- the devastating disappointment, adding insult to injury, of hearing President Trump refuse to condemn the white supremacists, place blame for the violence on "many sides," belatedly issue a statement decrying the KKK and neo-Nazis, and then revert to doubling down on his blasphemous moral equivalency that blamed the counter-protestors in the same breath as the supremacists

The president's response, saying that there are many sides to the story as if they were equally morally valid and worthy, signified a total eclipse, a complete obscuring of morality. There may in fact be two sides to this story, but one side is clearly right, and the other side is clearly wrong. As the Holocaust survivor Elie Wiesel said in his Nobel Peace Prize acceptance speech in 1986, "We must take sides. Neutrality helps the oppressor, never the victim. Silence encourages the tormentor, never the tormented."

During an eclipse, darkness is triumphant, but its victory is fleeting. Soon, perhaps not as soon as we would wish but eventually, light returns. Already some shining glimmers of morality have been restored:

- the courage demonstrated by the Charlottesville Jewish community, as they held their services and refused to let hate keep them away, and as they joined the front lines of the counter-protests
- the interfaith solidarity and collaboration that has demonstrated that we Jews do not face this danger alone, either as its potential victims or as those who have vowed to fight it on behalf of other threatened minorities
- the bipartisan overwhelming rejection and condemnation of the white supremacists, offering the hope that the supremacists' ideology has no legitimate place in the political life of our country
- the mother of Heather Heyer, who was killed by the car that rammed the counter-protestors, refusing to call for retribution in the wake of her daughter's death

And this is where I find my consolation and my direction for how to respond to this eclipse. I remain determined to partner with Heather Heyer's mother and all other people of good will in not surrendering to hate or violence or fear, but letting my outrage inspire righteous action on behalf of all who face danger and worry. I remain determined to join the Israelites who listened to Moses, choosing the blessing over the curse. I remain determined to follow the first humans after eating the fruit, knowing good from evil. I remain determined to imitate God the Creator, distinguishing light from darkness.

At the end of the section about eclipses, the Talmud says that when the Jews follow God's will, they do not need to be afraid of bad omens like an eclipse. The new month of Elul specifically calls us to begin to reflect on our actions of the past year, in preparation for the High Holy Days. If our reflections guide us to a path of joining together to follow God, to stand with each other, to protect the endangered, and to magnify justice, then we will have nothing to fear. As this new month begins, the moon will wax brighter, and its light will increase. May our light increase as well.

I would like to thank Ruth Keddem for all of her dedication and hard work as the TCS treasurer for the past year and three months. Ruth has decided to step down and Judy Romaine will be finishing out the term which will end on June 30<sup>th</sup> of 2018. Thank you to Judy for taking on this important job.

As we move to the 1st of Tishrei, 5778, what do you want to do at Temple Chayai Shalom? I would like to remind you that TCS is the temple that all of us make it. You can be engaged as little or as much as you want. Would you like to become a greeter and welcome new members one Friday night of the year? Would you like to help with an event that is happening in the fall that has a definite end point? Would you like to be on a committee that meets every month for the entire year? There is absolutely an opportunity for everyone! If you aren't sure what may interest you, talk to a board member and they will help connect you with the right group or person.

Shana Tova,

Heir Weber
